Printing day : 26th August
2025

Overview: Detached Villa located in one of the most sought after areas in the region, Ojen. Properties in Ojen are hard to come by and especially one of this quality. Marked an incredibly difficult to obtain energy rating A, this property has been designed ecologically with a unique fireplace at the heart of the home. This very special fireplace has been designed to, when lit, first heat the water and then proceed to heat the whole house through a series of pipes that run through the entire property. There is also double glazing throughout and all the bathrooms are fitted with the highest quality fixtures. The house has been built so that the bedroom areas are all separate from each other providing privacy, ideal for a large family or holiday rentals. Outside is a private swimming pool and terrace area and to the rear of the property are six 'caves', built into the rock and used for storage.
