The villa is built over 4 floors and has very good potential. The kitchen is separate, very well equipped with some professional appliances like a gas cooker, two fridges and large countertops. There is also a spacious bedroom that is originally a big office and a guest bathroom. It is possible to build a full bathroom next to it for more convenience. Upstairs, there are 4 bedrooms, each one with its en suite bathroom, closets and access to a large terrace with sea views. The ground floor has a huge garage where you can park 2 cars, store a lot of things and there is space for at least 4 more cars outside. This floor can be converted into guest apartments or for more profitability in case of rent. Then, under this floor, there is another enormous basement to store things or to be converted into a playroom. For your comfort, there are 2 gates to enter the property.
